

Tania Takes Another Win Across the Pond

Mississauga, ON - Lenberg Farms Tania Toscano Sheep's Milk Cheese continues its dominance in the culinary world, winning top honors in two major categories in last week's International Cheese Awards held in the United Kingdom. The event, held in Nantwich, England, featured nearly 4,500 cheeses, making it one of the largest competitions in the world.

Tania won **gold** in the Best Canadian Cheese and the Best Canadian Sheep's Milk Cheese categories. Crafted by Mariposa Dairy in Lindsay, Ontario and distributed exclusively by Finica Food Specialties, the award-winning sheep's milk cheese is celebrating its eleventh major award since 2011 (most recently placing first at the American Cheese Society conference for best Sheep's Milk Cheese Aged Over 60 Days), and its second European title.

Another Lenberg Farms creation, the Lindsay Bandaged Cheddar, placed second in the Best Canadian Goat's Milk Cheese category. Lindsay has also enjoyed a robust awards season, winning several key Canadian titles in last year's Royal Agricultural Fair and the British Empire Cheese Competition.

The winners from the International Cheese Awards join an extensive and accomplished line of cheeses distributed by Finica. For more product information about Finica, visit www.finica.com.
